February 2022:

The 12th Annual Great Lakes Finance Conference

The 12th Annual Great Lakes Finance Conference, organized by the Finance and Economics Committee, was graced by the presence of Mr. Subbarao Duvvuri, 22nd Governor of RBI & Former Joint Secretary of the Ministry of Finance (GoI), and the Founder and Chief Investment Officer of Marcellus Investment Managers, Saurabh Mukherjea, FRSA and his team comprising Rakshit Ranjan, CFA, and Salil Desai.

Mr. Subbarao Duvvuri, in a very insightful session, shed light on the four dilemmas that are observed by Central Banks, including those of global financial crisis, monetary policy, communication, and exchange. Citing examples from his own life he went on to illustrate how he handled the situations when confronted with such challenges.

In the next session addressed by Mr. Mukherjea where he said “Money Making in India is not easy, and wealth creation is polarized in India as profit-making is concentrated”, the students and alumni got valuable inputs from the market leaders on how to steer clear of bad investment decisions and how timing the market is never a good decision.

Leadership Unplugged

The Branding and Public Relations team organised another episode of Leadership Unplugged with Harsh Lal - Co Founder and Director of The Souled Store on February 11th, 2022.

Having worn so many hats and jumped so many ships successfully, he truly embodies the philosophy of The Souled Store - life is short, don't spend it doing something you don't like. He connected well with students and shared his personal and professional stories which inspired a lot of our students.
