

Great Lakes Institute of Management, Chennai presents COMPENSIO 2017.

Chennai, October 12: India is the third fastest growing hub for technology start-ups, according to a report by NASSCOM and Zinnov consulting. At least one new idea per day comes into the start-up world. However, why are all the ideas not successful? Every idea faces some initial struggles; it is about how hard you fight the struggles and how strong you emerge. It is then that your idea takes shape.

On that note, Great Lakes Institute of Management presents **Compensio**, an exciting event that brings together THE GAME CHANGERS - CEOs/Founders of successful ventures, Venture Capitalists, Angel Investors and budding entrepreneurs. As these inspiring personalities unveil their journey through the path less travelled, Compensio aims at manifesting latent entrepreneurial spirit of prospective management graduates.

For **Great Lakers**, known to be **job creators** and not job seekers, the big question is - How to come up with great business ideas and what it takes to build a future on it? Compensio answers all the questions and clears such ambiguity. This is the platform where "**innovation meets excellence**" to create the best. **As part of the event** Great Lakes has arranged a face to face interaction with 20 top level Managers, CEOs and Directors of illustrious organizations for the students.

B-Plan Competition is a platform for aspiring entrepreneurs to present their ideas and propositions to eminent industry personalities and gain hands-on experience and guidance on how to institute those models and ideas into successful live ventures.
