INSIDE CAMPUS

THE CLASS OF 2026

726 Graduating students

448 PGPM 2025–26

278 PGDM 2024–26

A proud milestone
An unforgettable day

The 15th Convocation ceremony brought together graduates, faculty, families and alumni to celebrate academic achievement and new beginnings. The ceremony opened with an invocation, followed by the Director's report, the Chairman's message and the Chief Guest's convocation address.

Director's address

Dr. Raj Krishnan Shankar

Presiding over his first convocation as Director, Dr. Raj shared that Great Lakes Gurgaon ranks among the top 6% of management institutes in India in the latest NIRF rankings and holds national NBA accreditation. In February 2026, the Institute became the youngest B-school in India to earn the AMBA (UK) and AACSB (US) double accreditation, placing it among a select group of business schools globally. He also highlighted the Institute's growing research output, the Karma Yoga community outreach programme and strong student performance in national competitions.

He urged graduates to remain curious and human, and to use technology intelligently.

MESSAGES TO THE GRADUATING CLASS
Looking ahead

Chairman's address
Mr. Mohan Lakhamraju

Mr. Lakhamraju reminded graduates that success grows from consistent daily effort, compounding over time. He encouraged them to retain their sense of agency through setbacks and treat early-career challenges as opportunities to build lasting strength.

"Success may manifest itself in a few big moments, but it is built in the many little moments every day."

Chief Guest's address
Mr. Mahesh Aras, J.P. Morgan

Drawing on his four-decade career, Mr. Aras encouraged graduates to choose a direction rather than merely a job. He emphasized combining deep expertise with critical thinking and building sincere relationships that grow into trust.

"Don't choose a job, choose a direction."

Moments that matter

Graduates received their diplomas from the Chairman, Director and Chief Guest, marking the culmination of their academic journey.

A new faculty procession composition by Arun Kumar Shivanand, PGPM 2019-20 alumnus, accompanied the faculty's entry and exit.

BENGALURU SATELLITE ROUNDTABLE

AI in Business

Reimagining Management Education & Careers

Bringing industry perspectives to the future of management education

Great Lakes Institute of Management, Gurgaon, hosted its **first Bengaluru Satellite Roundtable** on "AI in Business: Reimagining Management Education & Careers." Gautam Lakhamraju and Dr. Priyadarshi Dutta, CCS, in collaboration with Strategic Initiatives, brought together 16–17 industry leaders to explore how AI is reshaping talent needs and career opportunities for management graduates.

TWO PRIORITIES. ONE SHARED FUTURE.

01 The AI-ready talent blueprint

Moving beyond technical buzzwords to identify the cognitive and strategic skills that tomorrow's management professionals need.

02 Emerging career pathways

Exploring new AI-integrated roles and career trajectories opening up for MBA graduates across sectors.

A shared commitment to shaping the next generation.

Industry insights on AI, education and the future of work.

Connecting the classroom to the boardroom

The dialogue reinforced Great Lakes' commitment to aligning management education with industry needs—empowering graduates not just to adapt to technological change, but to lead it.

AWARDS

Great Lakes Gurgaon Wins Gold at IMC Awards 2026

Great Lakes, Gurgaon, won the **Gold Award at the 16th Indian Management Conclave (IMC) 2026**, held at IIM Lucknow's Noida campus, for its institution-wide initiative, "*AI for Judgement*."

The award recognises Great Lakes Gurgaon's **Decide-Build-Defend framework**, which integrates AI into learning and assessment while strengthening managerial judgement, practical application and individual accountability. The award was presented by **Mr. Tarun Garg**, MD & CEO, Hyundai Motor India; **Dr. Rishikesha Krishnan**, Vice-Chancellor, Ashoka University and **Dr. Amit Agnihotri**, Founder & Chair, IMC.

Great Lakes Gurgaon Recognised for Innovative Teaching and Learning Practices

Great Lakes, Gurgaon, received the **Outstanding Institute in Innovative Teaching and Learning Practices 2026** award at the **Dr. A.P.J. Abdul Kalam Ignited Mind Awards 2026**, held in Hyderabad.

The recognition celebrates the Institute's commitment to innovative pedagogy and future-ready learning.

Conversations & Faculty Interactions

Great Conversations — Session 3 with Mr. Susmit Sen

Great Lakes Gurgaon hosted the third session of its ***Great Conversations*** series featuring **Mr. Susmit Sen**, founder and lead guitarist of the iconic Indian fusion band *Indian Ocean*. Having co-led the band for 23 years before founding Susmit Sen Chronicles, he has pioneered a distinctive blend of Western jazz, rock, and Indian classical music.

During the session, Susmit shared insights from his journey of founding Indian Ocean, navigating challenges, drawing inspiration from diverse musical traditions, and building sustainable creative businesses.

Great Conversations

Research Rooted in the Indian Context with Dr. Vishal Gupta

Great Lakes Gurgaon hosted **Dr. Vishal Gupta**, Professor of Entrepreneurship, The University of Alabama, for an insightful faculty interaction on developing research rooted in the Indian context with global relevance.

Dr. Gupta shared perspectives on identifying research opportunities emerging from India's unique institutional, social and economic landscape.

Faculty Interaction

GLIMS Journal of Management Research and Technology

The 2026 issue of the **GLIMS Journal of Management Research and Technology** (MRT) has been successfully published and is now available online. Preparations for the next issue are already underway, reflecting the journal's continued commitment to advancing high-quality scholarly research. The journal has also initiated the Sherpa Romeo registration process, with positive progress anticipated in the coming months. In parallel, sustained efforts are being made towards securing Scopus indexing, further strengthening the journal's global visibility, academic credibility, and research impact.

CENTRE OF EXCELLENCE FOR SUSTAINABLE DEVELOPMENT

Sustainable Impact through Karma Yoga

The **PGPM 2026-27 Karma Yoga** field cycle began in July with students visiting their assigned Karma Bhoomi schools to understand community needs, build relationships and identify opportunities for meaningful intervention. By August, teams had moved from diagnosis to action—supporting digital infrastructure, installing laboratory storage, contributing first-aid resources and books, and conducting practical first-aid training for school students. A school closure also led to a **Reflection & Innovation Challenge**, where students reflected on their field experiences and designed low-cost, sustainable learning solutions.

The quarter also saw Karma Yoga **gain wider institutional recognition**, with the initiative submitted for the **i5 Awards 2026 – Student Initiatives** and identified for the **AACSB Global Impact Awards** under Societal Impact / Expanding Educational Access. Preparations for the next PGDM Karma Yoga cycle also progressed during September. Together, these efforts reflect Karma Yoga's evolution as a distinctive experiential-learning model that combines **responsible leadership, community engagement, reflection and frugal innovation**.

Data, Governance & the SDGs: A Sustainability Symposium

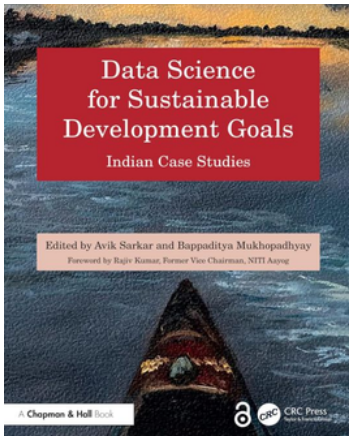

The **Centre of Excellence for Sustainable Development** concluded the "*Data, Governance & the SDGs: A Sustainability Symposium*" bringing together policymakers, industry leaders, academics and data experts to explore how robust data systems can enable more sustainable, inclusive and equitable growth.

The symposium examined the critical role of **data governance, policy execution, inclusive AI and systems design** in translating sustainability goals into meaningful outcomes. **Dr. Saurabh Garg, GoI** highlighted the need for granular, diverse and machine-readable data to strengthen decision-making in the civil service, while **Ms. Anna Roy, NITI Aayog** outlined the importance of the entire data ecosystem—from rigorous collection and standardisation to effective dissemination. Addressing the human dimension of technology, **Ms. Eunsong Kim, UNESCO** emphasised the need for more inclusive AI systems and greater representation of women in AI education.

The event featured the launch of *Data Science for Sustainable Development Goals*, edited by **Dr. Bappaditya Mukhopadhyay, GLIM, Gurgaon** and **Dr. Avik Sarkar, ISB** along with the Centre's ESG Whitepaper and discussions on data-driven governance and responsible growth. These initiatives reinforce Great Lakes Gurgaon's commitment to connecting research, policy and practice to advance sustainability and prepare future-ready leaders.

CAMPUS LIFE

PGPM · TERM 2 · ‘BUILDING WITH GENAI’ LAB

THE BIG SHOW

The term’s GenAI work, on stage

APPLIED, NOT EXPLAINED

REVIEWED BY FACULTY AND INDUSTRY

THE BATCH, THE REVIEWERS, THE TERM’S WORK

The PGPM batch closed Term 2 with **The Big Show**, the public reveal of the **‘Building with GenAI’ Lab**. Using Runway ML, ElevenLabs, Claude and Gemini, students built, failed, iterated and refined — then presented the journey as openly as the output.

WHAT THEY BUILT

01 **Structured newsletters**
Brief to formatted issue, end to end.

02 **RFPs**
Drafted and sharpened for real procurement needs.

03 **360° product experiences**
From concept to a working demo.

04 **AI-generated short films**
Assembled prompt by prompt, shot by shot.

TOOLKIT Runway ML | ElevenLabs | Claude | Gemini

NATIONAL ENTREPRENEURSHIP CHALLENGE · WITH E-CELL IIT BOMBAY

EUREKA! 2026

Campus Pitching Challenge

50+ participants | 6 founders on the jury | Pitch · Mentor · Network

Great Lakes Gurgaon turned into a hub of innovation as the **Entrepreneurship Cell** hosted the **EUREKA! 2026 Campus Pitching Challenge**, in association with E-Cell IIT Bombay under the National Entrepreneurship Challenge. Over 50 participants pitched ventures from idea to MVP before a jury of six founders and industry professionals — a day of pitching, hands-on mentoring and high-impact networking.

THE PODIUM

1ST PRIZE

Millezo

Neeti Agarwal, Founder & CEO

Took home the top honours of the campus round.

2ND PRIZE

TURBO

Presented by Ayush Biswas

Currently at the MVP stage, moving fast.

3RD PRIZE

AeroDx

Founded by Apeksha Kaushik & Daksh Vyawhare

ML-assisted E-Nose for early respiratory disease detection — patent filed, pilot under way at AIIMS Delhi.

BEYOND THE PITCH

Internships in the room

Two of the six founders expressed immediate interest in the institute's Summer Internship intake.

The road ahead

Winning teams advance to the Zonal and VC rounds, unlocking potential access to 45+ venture capitalists and the wider SJMSoM, IIT Bombay ecosystem.

Students steering the day from the podium.

Founders pitching ideas at every stage.

Questions, feedback and networking in the room.

Backing the builders of tomorrow

The event reflects Great Lakes Gurgaon's continued effort to foster an entrepreneurial culture — giving students and emerging founders a launchpad to build, pitch, learn, connect and take their ideas forward, with jury, faculty and student volunteers powering the ecosystem.

THE FLAGSHIP ANNUAL MANAGEMENT CONCLAVE

Sapience 2026.

Ideas that matter.
Conversations that move us.

Sustainability as Strategy:

Business in an AI-Driven and Unpredictable Future

INSIDE THE CONCLAVE ↓

LEADERS. IDEAS. IMPACT.

Great Lakes Institute of Management, Gurgaon

01 THE CONCLAVE

Beyond the hype. Towards responsibility.

Great Lakes Institute of Management, Gurgaon hosted **Sapience 2026**, its flagship annual management conclave, bringing together industry leaders and experts to examine what responsible and effective AI adoption means for business.

Two keynote addresses and four panel discussions explored AI's role in growth, resilience, innovation, digital transformation and sustainability. One message united the conversations: **AI should augment, not replace, human judgement.** Critical thinking, ethics, governance and accountability remain central to its responsible use.

02	04	01
Keynote addresses	Panel discussions	Shared responsibility

02 KEYNOTE VOICES

Leadership in the age of AI

Two perspectives. A shared conviction: responsibility must remain human.

Opening ceremony · Sapience 2026

KEYNOTE / 01

Charu Kaushal

Managing Director, Allianz Partners India

Technology transforms. Responsibility stays human.

In a world where uncertainty is an operating condition, Charu Kaushal called for resilience beyond financial outcomes—across operations, environmental impact and social responsibility. Mindful AI adoption can improve productivity, anticipate needs and manage risk, but stronger capabilities demand stronger human oversight.

> **"Responsibility must remain human."**

Inaugural lamp lighting · Sapience 2026

KEYNOTE / 02

Dr. Sanjeev Rastogi

Head – Group Policy Services, Adani Enterprises Limited

A companion. Not a master.

Drawing on his career across industries, Dr. Sanjeev Rastogi emphasised discipline, continuous learning and adaptability. Creating value requires understanding business on the ground and its stakeholders. His perspective on AI was clear: keep human judgement and oversight firmly in the loop.

> **AI should be a "saathi, not a swami."**

Four conversations. One future.

From human intelligence to sustainable progress, exploring AI beyond the technology.

HUMAN INTELLIGENCE

AI adoption & human judgement

AI can enhance intelligence, but it cannot replace human context, empathy, ethics or critical thinking. The panel emphasised validation, clean data and governance as the foundations of responsible adoption.

MODERATED BY

Dr. Poornima Gupta

GROWTH & RESILIENCE

AI as an agent of business change

Moving beyond adoption to real business value requires more than technology. The discussion explored how human judgement, adaptability, continuous learning and the right culture enable AI to support growth, resilience and agility.

MODERATED BY

Prof. Bappaditya Mukhopadhyay

INNOVATION & TRANSFORMATION

AI-driven business innovation & digital transformation

Bringing together technology, product, operations and AI leadership, the panel explored how organisations can translate AI capabilities into meaningful business outcomes and enterprise transformation.

MODERATED BY

Dr. Harish Kumar

SUSTAINABILITY & RESPONSIBILITY

Sustainability in an AI-driven world

Is sustainability an ambition or a need of the hour? The panel examined how organisations can balance technological progress with responsibility, resources and people—recognising that AI and sustainability do not automatically align.

MODERATED BY

Prof. Sanghamitra Bhattacharyya

Learning from the Best

Using Financial Analysis to Shape Business Strategy

Great Lakes Gurgaon hosted **Prof. Sudhakar Balachandran**, Professor of Accounting, University of Illinois Chicago, for an insightful session on "*Evaluating and Formulating Business Strategy Using Financial Analysis*." Through industry comparisons and real-world examples, students explored how financial metrics such as **profit margins and ROE can uncover competitive insights**, challenge assumptions and inform strategic decisions. The session highlighted the importance of looking beyond financial statements to understand the **business story behind the numbers and develop a holistic perspective on strategy**.

Leading Change Through a Human-Centered Lens

The PGDM Class of 2028 engaged with **Aman Sharma** and **Suhas Ranjan**, seasoned leaders from a leading global consulting firm, for an insightful session on *Human-Centered Organizational Change Management*. Using a real-world transformation case, the speakers explored **stakeholder mapping, the emotional dimensions of change, Design Thinking's Double Diamond and Kotter's 8-Step Model**, highlighting how empathy and a deep understanding of people are essential to driving meaningful and sustainable organisational transformation.

Learning from the Best

Leading Through Change: A CXO Perspective

Great Lakes Gurgaon welcomed **Ms. Linu Nair**, CFO, Gas Power Services – South Asia, GE Vernova, for an engaging **CXO Talk with the PGDM 2027 Cohort** on "*Leading Through Change: My Story, Your Strategy*." Drawing on her extensive experience in finance and strategic business leadership, Ms. Nair shared practical insights on **financial leadership, navigating change, building resilience and driving sustainable growth**, encouraging students to approach their careers with adaptability, purpose and strategic thinking.

Leading People Through Change

Great Lakes Gurgaon welcomed **Mr. Jacob**, Group Chief Human Resources Officer, Aster DM Healthcare, for an insightful **CXO Talk with the PGPM 2027 Cohort** on "*Leading People Through Change: Building Resilient, Future-Ready Organizations in a Global Workforce*." Drawing on over three decades of HR leadership across diverse global markets, Mr. Jacob shared perspectives on **leading through uncertainty, managing organisational change, developing talent and building resilient, future-ready teams**, offering students valuable insights into the evolving role of people leadership in a global workforce.

Learning from the Best

The Future of Marketing: Powered by AI

Great Lakes Gurgaon welcomed **Neeti Deo**, Associate Vice President - Marketing Services, LTM, for an insightful guest session on "*The Future of Marketing: Powered by AI.*" Drawing on over two decades of experience across marketing, digital business, customer experience, data, technology and AI, Neeti shared practical perspectives on **how AI is transforming consumer understanding, customer experiences and business decision-making**. The session offered students valuable insights into **AI-driven innovation, digital transformation and the evolving role of marketers** in a rapidly changing business landscape.

Exploring Technology, Talent & the Future of Digital Commerce

Great Lakes Gurgaon welcomed the **Criteo team** for an engaging session **exploring the intersection of technology, data and people in shaping the future of commerce and digital experiences**. Students gained insights into technical solutions, client-focused problem-solving, career opportunities and organisational culture through interactions with Criteo's technology and Asia Pacific Talent Acquisition teams. The session also highlighted the importance of **diversity, inclusion and belonging** offering students a well-rounded perspective on the people, possibilities and purpose driving Criteo

Conversations that Shape Careers

Building Confidence in Guesstimates & Case Interviews

Great Lakes Gurgaon hosted **Mr. Nikhil Bansal**, Strategy Consultant, for an insightful session on "Guesstimates and Case Studies." **The session equipped students with practical frameworks to approach unfamiliar problems with greater structure, clarity and confidence, while strengthening their preparation for placement interviews and case-based assessments**. Through industry-oriented examples, Mr. Bansal shared valuable insights on breaking down complex problems, structuring thought processes and arriving at logical solutions, offering students a practical perspective on what to expect during the recruitment process.

Managing Careers in the AI World

Great Lakes Gurgaon hosted **Alex Alexander R.**, Director – HR, Oracle India, for an insightful guest session on "*Managing Careers in the AI World*." Drawing on over two decades of global HR leadership, Alex shared practical perspectives on **building future-ready careers through the right mindset and skillset, and navigating the evolving workplace as AI reshapes roles and industries**. The session encouraged students to strategically develop their capabilities and stay **relevant, resilient and impactful in the decade ahead.**

WHAT'S NEW

THE GREAT LAKES PODCAST

Human intelligence. Meet the AI era.

Inside the shifts redefining consulting and global supply chains.

01 | CONSULTING × ARTIFICIAL INTELLIGENCE

The consultant of tomorrow

Param Puneet Singh
Managing Director; Strategy & Consulting · Accenture
In conversation with Amanpreet Aulakh

AI is changing how consulting creates value. Tomorrow's leaders will orchestrate human teams and AI agents—not simply manage people or master a tool.

- "Prompts are the new PPTs": a new way of working.
- True AI fluency goes beyond tool familiarity.
- The strongest consultants will need to be more human.

Watch full conversation ↗

02 | OPERATIONS × ARTIFICIAL INTELLIGENCE

Can a supply chain run itself?

Angad Royar
Global supply chain leader · Amazon
In conversation with Prof. Jaya Priyadarshini

From buying to shipping and pricing, autonomous supply chains promise a radical shift. But today's systems were not built for AI—and human accountability still matters.

- Where autonomous supply chains actually stand today.
- What AI means for the next decade of supply chain careers.
- Where humans must retain the final decision.

Watch full conversation ↗

THE GREAT LAKES PODCAST

New expectations. Better business.

Rethinking workplace culture and the future of India's food industry.

03 | LEADERSHIP × WORKPLACE CULTURE

Beyond the "yes man"

Vinay Trivedi
Global Head HR · TerraPay
In conversation with Prof. Vibhav Singh

A younger workforce is challenging presenteeism, unquestioned instructions and burnout. The conversation asks whether the real problem is entitlement—or outdated leadership habits.

- Value outcomes over the optics of long hours.
- Question inherited processes, not just the next generation.
- Rethink when experience helps—and when it holds us back.

Watch full conversation ↗

04 | CONSUMER TRENDS × BUSINESS STRATEGY

The next chapter in food

Kunwar Himmat Singh
Director of Corporate Affairs · Nestlé South Asia
In conversation with Nitin Verma · GM, Marketing & Admissions, Great Lakes

Agile startups and fast-changing tastes are reshaping India's food business. Established brands such as Maggi must evolve, while health claims face greater scrutiny.

- Startups put positive pressure on established brands.
- Consumer trends drive continuous reinvention.
- Scientific transparency matters more than loud health claims.

Watch full conversation ↗

ALUMNI CORNER

Sonali Bhatia Appointed Associate Director at PwC India

We are delighted to share that **Sonali Bhatia (PGPM 2016)**, alumna of Great Lakes Gurgaon, has joined **PwC India as Associate Director.** This milestone reflects her continued professional growth and emerging leadership.

We take pride in seeing our alumni make their mark at leading organisations and embody the spirit of excellence nurtured at Great Lakes.

Ahead of the Curve | Alumni Perspectives on Building the Right Skills

The Alumni Committee at Great Lakes Gurgaon hosted "**Ahead of the Curve**: **Alumni Perspectives on Building the Right Skills,**" bringing together five accomplished alumni for an engaging panel discussion on industry trends, career readiness, practical preparation, and the skills needed to thrive in today's dynamic job market.

The discussion featured insights from:

- Anurag Dabas – Bain & Company | PGPM 2019
- Ashutosh Atreya – Microsoft | PGPM 2017
- Ritika Saraf – Fidelity International | PGPM 2020
- S Snehanshn – ClearTax | PGDM 2019
- Arpit Gupta – Fidelity International | PGPM 2019

The session offered valuable perspectives on bridging the gap between academic learning and industry expectations, helping students better prepare for evolving career opportunities.
