Planting Seeds of Sustainable Impact: A Karma Yoga Initiative

At Great Lakes, we believe leadership is not just about building enterprises — it's about nurturing a better tomorrow. During Sapience 2025, as thought leaders, innovators, and changemakers graced our campus, we invited them to leave behind something more lasting than words — a living legacy.

Each guest planted a sapling, embodying the spirit of Karma Yoga — selfless action for collective good. With every handful of soil, they pledged to nurture ideas that not only drive innovation but also heal, replenish, and sustain the world around us. These saplings now stand as symbols of conscious leadership, reminding us that true impact goes beyond boardrooms and balance sheets. It takes root in our actions, in the ground we care for, the air we protect, and the choices we make today for the generations to come.

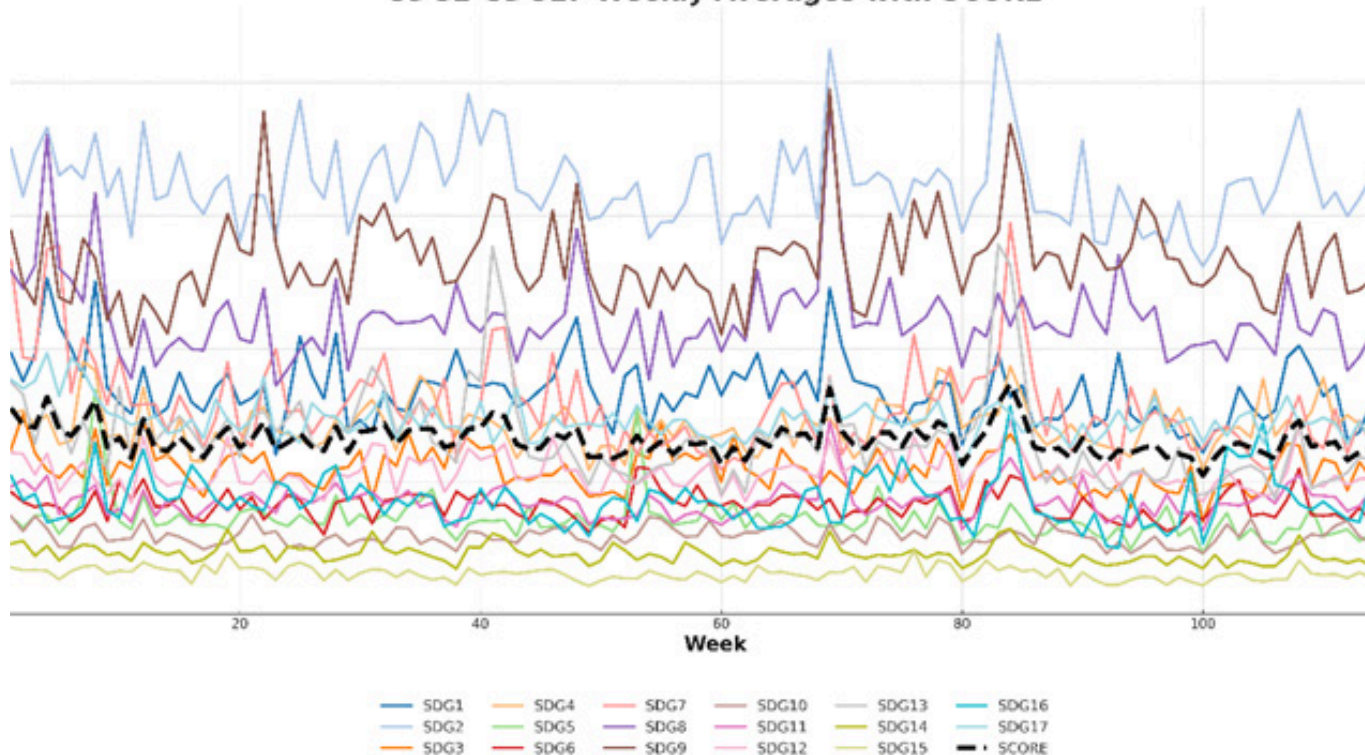

At Great Lakes, sustainability is not just a concept taught in classrooms — it is a lived value, expressed through mindful action and shared purpose across our community.

SCORE INDEX INSIGHTS

The SCORE (Sustainability Content Occurrence and Relevance Evaluation) data from July-August 2025 shows a sharp dip in SDG engagement, driven by symbolic rather than sustained coverage. Despite World Population Day (July 11), the index fell by 0.68 (July 7-12) as SDG 3 and SDG 5 awareness remained low, with declines in SDG 4 and SDG 16 offsetting minor gains in SDG 2. The downward trend continued (0.50, July 14-19) before rebounding to 1.32 (July 21-26) around the International Day for the Conservation of the Mangrove Ecosystem (July 26), which boosted SDG 13 and SDG 17 but had limited spillover to SDG 14 and SDG 15.

SDG1-SDG17 Weekly Averages with SCORE

Key Highlights

- July 28-Aug 2: Sharp drop (1.29) from declines in SDG 1 and SDG 2.
- Aug 4-9: Mild recovery (0.96) driven by SDG 12, ahead of International Youth Day.
- Aug 11-16: Slight dip (0.86) with spikes in SDG 4, SDG 9, and SDG 13 around Independence Day.
- Aug 18-23: Strong rebound (1.46) on renewed focus on SDG 1 and SDG 2.
- Aug 25-30: Major fall (3.02) despite International Day against Nuclear Tests; weak SDG 16 response.
- Overall: Engagement remained event-driven, with focus on poverty, hunger, climate, and education, but lacking sustained momentum.
