Great Lakes Institute of Management, a premier B School in the country, for the first time collaborated with TEDx and organised TEDxGLIMChennai event today at its campus located in Manamai.

TEDx is an independently organised event that brings the community together to share a TED-like experience. Under the theme - 'Eclectics', TEDxGLIMChennai featured local voices from diverse backgrounds who discussed on groundbreaking ideas that could reshape tomorrow's landscape. The event sponsors included Infotrellis and Instant Karma.

Dr. Bala V Balachandran, Founder, Dean & Chairman, Great Lakes Institute of Management and Dr. Vaidy Jayaraman, Associate Dean, Great Lakes Institute of Management welcomed the attendees and speakers said:

- "I am extremely delighted to welcome you all to the first ever TEDx event taking place at the only LEED platinum campus of the country. TEDx as you all know symbolises three major things - Technology, Entertainment and Design, and we at Great Lakes are at the right time putting together these things in our strategic alliance with Illinois Institute of Technology, Chicago for MBA in Technopreneurship Programme. Technology, Innovation and design thinking are currently revolutionising the industry. And, TEDx is a beautiful concept that is bringing these factors, along with entertainment to share messages to the audience."
- Dr. Bala further highlighted about Platform Unmanned Cargo Aircraft (PUCA) and how Singapore has come up with driverless cabs and the world witnessing these dynamic technology changes. He also appreciated the students of Great Lakes for an amazing effort and remarked how TEDxGLIMChennai will be the best show to go down in the history of TEDx events
