Message from Director - PGPM

“No learning is complete unless it helps the learner to internalize the inputs and changes them into life skills by creating successful business leaders.”

In a short span of nine years, Great Lakes Institute of Management, Chennai has succeeded in carving a niche for itself among the top tier management institutions in the country. As a college that has always been alert to industry requirements and feedback, we're certain that we're churning out 'Day One Job Ready Managers' and Future Business Leaders. This year we've initiated a full-fledged specialization in Business Analytics and Human Resource Management in line with the growth and requirement in these fields. With the introduction of these courses we've continued our tradition of innovation and stellar course design.

The rigorous selection procedure ensures that we only admit students who have significant work experience and are equipped to take on demanding roles in the corporate world post their MBA. The curriculum is current and challenging and ensures that students gain the right knowledge and skills to deal with real business problems. With our collaborative arrangements with business schools across the globe, a supporting pool of visiting and adjunct faculty from top International B-Schools such as Kellogg, Stanford, Harvard, IIT Chicago, Columbia, Yale, among many others, supported by a group of core faculty who have themselves excelled in the finest B Schools, Great Lakes is the embodiment of its underlying philosophy: Global Mindset - Indian Roots. Our in-house academic exertions are complemented by insightful guest lectures delivered by personalities with a record of outstanding accomplishments in all walks of life, providing a deeper perspective to the ideas and practice of management to the student body.

Great Lakes' state-of-the-art, eco-friendly green campus sets the tone for a dynamic environment that plays a great role in motivating everyone – faculty, staff and students – to deliver their best.

At Great Lakes, we encourage learning by doing. The culture in Great Lakes facilitates not only learning from academicians and eminent industry captains but also peer learning. Aided by the latest technology, a continually evolving curriculum, and constant corporate interaction, our students are transformed from being first class management students into astute Thought Leaders who are ready to take on the challenges of the corporate world, both in India and abroad.

Our signature projects, Karma Yoga and the Empirical Study differentiate our course from other B-schools in India. While Karma Yoga helps students to adopt the principles of servant leadership through real experience as they work with the underprivileged and strive to give back to society, the empirical study gives students a chance to research real business problems and work on live industry projects.

I'm extremely proud of the achievements of the Progressive Pallavas and as they get ready to set out on their corporate journeys, it is my pleasure to cordially invite you to take part in the forthcoming Campus Recruitment Program 2014.

Prof. Sanjoy Sircar
Director – PGPM

Message from the Director - Corporate & Career Services

**“The teacher
who is indeed
wise does not
bid you to enter
the house of
his wisdom but
rather leads you
to the threshold
of your mind.”
Khalil Gibran**

Dear Partner,

Welcome to Great Lakes Institute of Management - the mantle for Management excellence that produces world class business ready managers to take-on the challenges of the complex and dynamic world economic order. Founded by Padmashri Dr. Bala V. Balachandran, Great Lakes is propelled by knowledge and steered by values, which has made a mark for itself in being the leading high calibre talent provider for the industry in a very short span of nine years.

Our academic curriculum is designed, based on corporates demands and Business Analytics and Human Resource Management are additional specializations introduced this year. Besides our world class pedagogy, internationally acclaimed faculty members and the academic rigour, we also have Experiential Learning Programs, empirical studies with live projects and Karma Yoga - our unique leadership development program.

Great Lakes' flagship program is the fast-track one-year Post-Graduate Program in Management (PGPM) offered to young professionals with a minimum of two years' work experience and a very competitive GMAT/CAT score. The Class of 2014 known as “Progressive Pallavas” comes with an average work experience of 38 months (2 to 7 years is the range of experience) across different business domains and functions, representing top 5% of such talent available across the country.

The batch comprises of a strong mix of individuals from variety of educational backgrounds including full time post graduates, professionals like Chartered Accountant, CFAs and the certificate holders such as Microsoft Certified Technology Specialist (MCTS), IIBA Certified Business Analysis certificate in US Banking, SAP HCM/HR ABAP Certification, Oracle Certification, Six Sigma Green Belt, NCFM Certification on Financial Markets etc.

As we march-on into our 10th successful year, we'd be privileged to partner with you, and we take pleasure in inviting you to join us in various on-going Campus connect activities which will be followed by Final Placement Program, to identify your future leaders from one of India's premier B-Schools.

We look forward to your active participation in the campus recruitment program 2014

R. Shreenath

Director - Corporate & Career Services
