In a short span of eight years, the Great Lakes Institute of Management, Chennai has succeeded in carving a niche for itself among the top tier management institutions in the country. With an emphasis on creating Day One Job Ready Managers and Future Business Leaders, Great Lakes has undertaken a revolutionary design in management education through an innovative 1 year program and a carefully selected intake of students with significant prior work experience, who are equipped to take the fullest advantage of the exceptionally rigorous and demanding nature of the customized curriculum. With its collaborative arrangements with business schools across the globe, a supporting pool of visiting and adjunct faculty from top International B-Schools such as Kellogg, Stanford, Harvard, IIT Chicago, Columbia, Yale, among many others, supported by a group of core faculty who have themselves excelled in the finest B Schools, Great Lakes is the embodiment of its underlying philosophy: Global Mindset - Indian Roots. Our in-house academic exertions are complemented by insightful guest lectures delivered by personalities with a record of outstanding accomplishments in all walks of life, providing a deeper perspective to the ideas and practice of management to the student body.

Great Lakes’ state of the art, eco-friendly green campus sets the tone for a dynamic environment that plays a great role in motivating everyone – faculty, staff and students – to deliver their best.

At Great Lakes, we encourage learning by doing. The culture in Great Lakes facilitates not only learning from academicians and eminent industry captains but peer learning as well. Aided by the latest technology, a continually evolving curriculum, and constant corporate interaction, our students are transformed from being first class management students into astute Thought Leaders who are ready to take on the challenges of the corporate world, both in India and abroad.

Our signature enterprise, the Karma Yoga project, aims at Great Lakers helping local NGOs and the underprivileged to give them a fighting chance at the future besides inculcating in our students, who will be future managers and leaders, a sense of social responsibility and the ‘art of giving’ back to the greater society which has brought them to Great Lakes.

Like the old days at the great port of Mamallapuram where great Indian explorers set out on voyages of discovery and adventure, Great Lakes offers you the best B-School graduates in the country, ready to set out on their corporate journeys. It is my pleasure to invite you to Placements 2013.

Prof. Sanjoy Sircar
Director – PGPM
MESSAGE FROM THE DIRECTOR – PLACEMENTS

Dear Partner,

Welcome to the powerhouse of knowledge, talent and superior learning - Great Lakes Institute of Management.

Ever since inception in 2004, we at Great Lakes have always strived to produce ‘business ready managers’. Under the mentorship of Dr. Bala V. Balachandran, and stewardship of many management gurus and business leaders, Great Lakes is marching forward in its commitment to providing world-class management education through advanced learning pedagogies and tools, with internationally acclaimed faculty and professionals. Our curricula are designed to bring to fore latent human potential and unleash talent to great effect, to build and mold careers and lives of these chosen student resources. Through our unique ‘Karma Yoga’ and other initiatives, we inculcate strong leadership values, making the learners socially responsible global leaders.

The current class of PGPM, aptly named the ‘Mighty Mamallas’, comprises talents with an average work experience of 41 months and represent a diversified background including unique ones such as Journalism and Mass communication, Interior & Fashion Designing, Dentistry and Charted Accountancy, Architecture and Pharmacy, besides the regular ones. They also come with a rich business experience covering a wide spectrum - Manufacturing, IT, Oil & Gas, Telecom, Auto, BFSI and FMCG, to name a few.

It will be our pleasure to host you at Dr. Bala V. Balachandar campus, a LEED platinum rated green campus with state-of-the-art learning and development facilities, to identify your future leaders from one of India’s best B-School talent pools. Few hundreds of the global business organizations across various sectors collaborate with us currently for their leadership and management talent resource acquisition through live projects, competitions and collaborative learning initiatives, apart from participation in campus placement.

We look forward to your active participation in the campus recruitment program 2013, giving opportunity to the Mamallas to associate with you, who are poised to make a difference – to themselves, their customers and to the global community.

R. Shreenath
Director - Placements
MASTER / PROFESSIONAL DEGREE AND SPECIALIZED CERTIFICATIONS

The batch represents a diverse pool of talent, including holders of master and professional degrees, such as Chartered Accountants, Chartered Financial Analyst (CFA), Information Systems, Mass Communication, Hospital Management, Organic Chemistry, Business Management, Biotechnology, Banking, IT and Computer Science. We also have talents who have specialized certifications such as CRISIL Certified Analyst, NSE certification, Six Sigma, Project Management Professional (PMP), NCFM certification, ISO Internal Quality Auditor, Intellectual Property Right, APICS Basics of Supply Chain Management (BSCM) and various insurance related certificate courses.
